Dr. G.M. Taori

Director

Central India Institute of Medical Sciences (CIIMS), Nagpur

E-mail: gm_taori@hotmail.com

Dr. G. M. Taori is Director of Central India Institute of Medical Sciences (CIIMS), Nagpur. After successful completion of post-graduate studies in Medicine from Nagpur University he took up Neurology as career and worked initially in the Department of Neurological Sciences at CMC Vellore, then proceeded for further training in Neurology and allied disciplines like Clinical Neurophysiology, Neuropathology to Montreal Neurological Institute, Montreal, Canada. After completing the training and getting the qualification FRCP(C) in Neurology from Royal College of Physicians and Surgeons, Canada, he proceeded to Department of Neurological Sciences, Glasgow University under Prof J A Simpson in January 1967. He also worked as Chief Neurologist at CMC, Vellore from 1968 to 1973. Apart from guide and examiner of UGs and PGs in Neurology, he was also guide and examiner for DM Course in Neurology. He have been actively involved in developing the much needed 120 bedded speciality Institute known as "Central India Institute of Medical Sciences" not only for clinical care but also for training and research. This Institute has been developed on generous public support. Currently this Institute is celebrating its "Silver Jubilee Year". This Institute is recognized as Research organization by DST, MCI, National Board of Examinations, Nagpur University and Datta Meghe Institute of Medical Sciences, University for DNB, PhD and research work in Medicine, Surgery and Anaesthesia, Neurology and Neurosurgery, Clinical Biochemistry and Microbiology. He is awarded with E Merck Gold Medal for Best Research Paper, "Life Time Achievement Award" by the Department of Neurological Sciences, CMC Hospital, Vellore and by Neurological Society of India. He delivered Rammurthy Oration in NEUROCON 2001 at Mumbai. He is also awarded with Professional Excellence award, Vidarbha Gaurav award, EC Eduljee Vocational Excellence award, Nagbhushan award, Prerna Kunj award etc. He has nearly 60 publications to his credit in the National and International journals. He also contributed chapters for some Neurology books. He is strict disciplinarian to the point of annoyance at times to others, ever willing to accept own faults and ready to take corrective steps to improve and not willing to sacrifice his convictions for any individual's benefit.
